

MOBILE TRELLIBARRIER

PRODUCT INFORMATION

Description:

A mobile barrier with no top or bottom tracks that stacks away neatly to 14% of the original size to optimize space. Ideal use in shopping centers for after-hours crowd control, partitioning kiosks, factories, car parks and loading docks.

Details:

The barriers are manufactured from galvanized steel and powder coated. The Trellis type pattern is riveted to form a lattice pattern, using 19x19 square galvanized tube sections. Standard height and width per section is 2m high x 2 m wide.

Finish:

Powder coated colours white and black.
