

SPEED HUMPS

PRODUCT INFORMATION

Bollard Queensland's recycled rubber speed humps are manufactured from tough recycled rubber and its flexible modular design will suit all applications.

Built in "Cat's Eye" Reflectors for added safety and visibility
2 x 12mm fixing points.

2 x Cable channels will accommodate cables or piping or allow for facilities drainage.

Our recycled rubber speed humps are sold by the meter and are made up of 4 x 250mm modules 2 yellow and 2 black. We have end caps if required which completes the speed hump safely and makes sure there is no trip hazard for pedestrians.

Recycled rubber speed humps are an environmentally friendly and cost effective way to slow traffic and ensure safety on your site. The added benefit of using the recycled rubber speed hump is it absorbs the noise and eliminates the clunk associated with metal speed humps.

Recycled rubber speed humps are suitable for:

Shopping centres (high Traffic)

Commercial premises

Petrol stations

Residential units

Where traffic management is needed

Specifications

250mm (w) x 345mm (l) x 50mm (h)
